# SUBJECT INDEX

## Volume 125 (JANUARY-JUNE, 2004)

- Abnormalities: See also Genetics; assessment of symptoms and exercise capacity in cyanotic patients with congenital heart disease, 368
- Absenteeism: See Schools
- ACCP-SEEK board review question of the month, abnormal ECG in man admitted to ICU with chest pain and irregular pulse, 775
- ICU admission for anterior myocardial infarction with shortness of breath, 1577
- woman with chronic, unproductive cough and left lower lobe lung mass, 1148
- woman with COPD and fixed and dilated pupil following head trauma, 305
- Acetylcysteine, N-, oral, elastase-induced pulmonary emphysema in rats, 1500
- Achalasia, diffuse aspiration bronchiolitis due to, 349, 350
- Acid-fast smear: See Tuberculosis
- Acidification of distal esophagus and sleep-related breathing disturbances, 2101
- Acidosis, hyperchloremic, effects of, on arterial pressure and circulating inflammatory molecules in experimental sepsis, 243
- Acquired immunodeficiency syndrome: See HIV infections
- Acupuncture, can a standardized technique palliate disabling breathlessness: a single-blind, placebo-controlled crossover study, 1783
- Acute Asthma Quality of Life Questionnaire: See Questionnaires
- Acute lung injury: See Lung injury
- Acute respiratory distress syndrome (ARDS): See Respiratory distress syndrome, adult
- Adeno-associated virus: See Cystic fibrosis
- Adenocarcinoma, elevated hepatocyte growth factor level correlates with poor outcome in early-stage and late-stage adenocarcinoma of the lung, May Supp., 116S
- evidence that inflammation encourages pulmonary adenocarcinoma formation in mice: clinical implications, May Supp., 154S
- Adenoid cystic carcinoma: See Carcinoma
- Adenosine deaminase, comparison of six biological markers for the diagnosis of tuberculous pleuritis, 987
- Adenosine monophosphate, long-term dosing effects of mediator antagonists in inhaled corticosteroid-treated atopic asthmatic patients, 1372
- Adenotonsillectomy, sleep apnea in children and, 2363, 2364
- Adhesin, Feb. Supp., 63S
- Adhesion molecules: See Cell adhesion molecules
- Adolescence, concordance between parental and children's reports of parental smoking prompts, 429
- healthy male adolescents, environmental tobacco smoke may induce early lung damage in, 1387
- normal polysomnographic respiratory values in children and adolescents, 872
- sphincter, pharyngoplasty as a treatment of velopharyngeal incompetence in young people: a prospective evaluation of effects on sleep structure and sleep respiratory disturbance, 864
- Adrenergic  $\beta$  adrenoceptor agonists, inhaled, and left ventricular systolic function, 1174
- Adrenergic  $\beta$  agonists, asthma exacerbations and formoterol, 1590
- cardiovascular effects of, in patients with asthma and COPD: a meta-analysis, 2309
- Adrenergic  $\beta_2$  agonists, acute asthma in adults: a review, 1081
- long-acting bronchodilators are the first-choice option for the treatment of stable COPD, 9
- Adult respiratory distress syndrome (ARDS): See Respiratory distress syndrome, adult
- Aeroallergens: See Hypersensitivity
- Aerosols: See also Corticosteroids, inhaled; Nebulizers; comparison of lung deposition in two types of nebulization: intrapulmonary percussive ventilation vs jet nebulization, 502
- increased responses to inhaled oxitropium bromide in asthmatic patients with active hepatitis C virus infection, 136S
- inhaled  $\beta$ -adrenoceptor agonists and left ventricular systolic function, 1174
- nebulized morphine: a convenient and safe alternative to dyspnea relief? 363
- nebulized opioids use in COPD, 691
- regional deposition of aerosolized interferon- $\gamma$  in pulmonary tuberculosis, 2146
- repeated adeno-associated virus serotype 2 aerosol-mediated cystic fibrosis transmembrane regulator gene transfer to the lungs of patients with cystic fibrosis: a multicenter, double-blind, placebo-controlled trial, 509
- Africa: See Gambia
- African Americans, ethnicity and skin test reactivity to aeroallergens among asthmatic children in Connecticut, 85
- sarcoidosis, race and short-term outcomes following lung transplantation, 990
- smoking patterns in whites and, with advanced COPD, 15
- Age and aging, a community study of sleep-disordered breathing in middle-aged Chinese women in Hong Kong: prevalence and gender differences, 127
- changing patterns in asbestos-induced lung disease, 744
- clinical practice of lung transplantation in North America, 1183
- critical care professional societies address the critical care crisis in the United States, 1512
- dosing practices and risk factors for bleeding in patients receiving enoxaparin for the treatment of an acute coronary syndrome, 1616
- effect of end point and, on the prognostic value of the exercise test, 1920
- endurance and strength training in patients with COPD, 2036
- novel diagnostic test for the risk of aspiration pneumonia in the elderly, 801
- prognostic value of stress testing in patients over 75 years of age with chronic angina, 1124
- recognizing and treating glucocorticoid-induced osteoporosis in patients with pulmonary diseases, 1859
- reference values for arterial blood gases in the elderly, 2053
- steady-state intrapulmonary concentrations of moxifloxacin, levofloxacin, and azithromycin in older adults, 965
- survey of clinical practice of lung transplantation in North America, 1224
- survival of patients with bronchiectasis after the first ICU stay for respiratory failure, 1815
- AIDS: See HIV infections
- Air conditioning, decreased respiratory symptoms after intervention in artificially ventilated offices in São Paulo, Brazil 326
- Air leaks, lasers, staples, bovine pericardium, talc, glue and... suction cylinders? tools of the trade to avoid, in lung volume reduction surgery, 361
- lung volume reduction surgery in canine model of predominantly upper lobe emphysema: advantages of new surgical system, 633
- Air pollution: See Environmental exposure; Occupational and environmental lung disease
- Air transport, successful aeromedical transport using inhaled prostacyclin for a patient with life-threatening hypoxemia, 1579
- Airtrapping, lung density measurements in spontaneous pneumothorax demonstrate, 2083
- Airway, activation of bronchial epithelial cells in smokers without airway obstruction and patients with COPD, 1706
- antioxidants and oxidative stress as predictors of sputum atypia and airflow obstruction, May Supp., 127S
- asthma and obesity: a real connection or a casual association? 1972
- benign and malignant stenoses, balloon dilatation using flexible bronchoscopy for the management of, 354
- bronchial dilatation in asthma: relation to clinical and sputum indices, 1352

- chronic disease, immunomodulatory activity and effectiveness of macrolides in, Feb. Supp., 70S
- cystic fibrosis adult care: consensus conference report, Jan. Supp., 1S-39S
- effects of macrolides on inflammatory cells, Feb. Supp., 41S
- evaluating noisy breathing in children: how far down the airway should one look? 1184
- extrathoracic expiratory flow limitation in obesity and obstructive and restrictive disorders: effects of increasing, 98
- geographic and gender variability in the prevalence of bronchial responsiveness in Canada, 1657
- high prevalence of endobronchial malignancy in high-risk patients with moderate dysplasia in sputum, May Supp., 109S
- hyperresponsiveness, field exercise vs laboratory eucapnic voluntary hyperventilation to identify, in elite cold weather athletes, 909
- impact of cigarette smoke on the normal airway transcriptome, May Supp., 115S
- interventional bronchoscopy for treatment of tracheal obstruction secondary to benign or malignant thyroid disease, 723
- lung cancer detection in asymptomatic patients with airflow obstruction, May Supp., 163S
- lung density measurements in spontaneous pneumothorax demonstrate airtrapping, 2083
- methacholine challenge testing: comparison of the two American Thoracic Society-recommended methods, 453
- nebulized morphine: a convenient and safe alternative to dyspnea relief? 363
- obstruction, chronic, development of, in patients with eosinophilic bronchitis: a prospective follow-up study, 199S
- obstruction is common but unsuspected in patients admitted to a general medicine service, 106
- obstruction, nonmalignant, high dose rate brachytherapy for: new treatment option, vol. 124:1605; clarification, vol. 125:356
- preinvasive bronchial lesions: surveillance or intervention?, May Supp., 95S
- reactivity, effect of weight reduction on respiratory function and, in obese women, 2046
- responses to inhaled allergen, effect of ozone exposure on, in asthmatic subjects, 232S
- stenosis, grading, down to the segmental level using virtual bronchoscopy, 704
- tracheobronchial adenoid cystic carcinoma: a clinicopathologic study of 14 cases, 1160
- Airway pressure, mean: See Oxygenation
- Akt, activation of the Akt/nuclear factor- $\kappa$ B signaling axis in developing lung neoplasia, May Supp., 153S
- phospho-Akt overexpression in non-small cell lung cancer confers significant stage-independent survival disadvantage, May Supp., 152S
- tobacco carcinogen-induced cellular transformation increases Akt activation *in vitro* and *in vivo*, May Supp., 101S
- Alaska Natives, prevalence of asthma and chronic respiratory symptoms among children, 1665
- Aldosterone excretion among subjects with resistant hypertension and symptoms of sleep apnea, 112
- Alendronate, recognizing and treating glucocorticoid-induced osteoporosis in patients with pulmonary diseases, 1859
- Alkalosis, metabolic, and cystic fibrosis, 1169
- Allergies: See Hypersensitivity
- $\alpha_1$ -antitrypsin: See Antitrypsin
- $\alpha$ -chemokines: See Chemokines
- Alveolar granulocyte colony-stimulating factor and  $\alpha$ -chemokines in relation to serum levels, pulmonary neutrophilia, and severity of lung injury in ARDS, 212
- Alveolar hemorrhage, diffuse: See Hemorrhage
- Alveolar partial oxygen pressure: See Oxygenation
- Alveolar macrophages: See Alveoli
- Alveoli, enhanced alveolar clearance with chest percussion therapy and positional changes during whole lung lavage for alveolar proteinosis, 2351
- HIV-1 infection does not impair human alveolar macrophage phagocytic function unless combined with cigarette smoking, 1071
- increase in alveolar nitric oxide in the presence of symptoms in childhood asthma, 1012
- increased levels of cell death and proliferation in alveolar wall cells in patients with pulmonary emphysema, 626
- regulated gap junction-cytoskeletal associations in rat alveolar epithelial cells, May Supp., 110S
- relationship between single-breath diffusion capacity of the lung for nitric oxide and carbon monoxide during various exercise intensities, 1019
- retrovirus-induced lung cancer: mechanisms of transformation of alveolar type II epithelial cells, May Supp., 106S
- Alveolitis, cryptogenic fibrosing: idiopathic interstitial pneumonias and the concept of the trump card, 359
- cryptogenic fibrosing: prognostic implications of histologic patterns in multiple surgical lung biopsies from patients with idiopathic interstitial pneumonias, 522
- American Association of Critical-Care Nurses, critical care medicine crisis: a call for federal action; white paper from the critical care professional societies, 1518
- critical care professional societies address the critical care crisis in the United States, 1512
- American College of Chest Physicians, balloon dilatation using flexible bronchoscopy for the management of benign and malignant airway stenoses, 354
- competencies in pulmonary procedures, 800
- critical care medicine crisis: a call for federal action; white paper from the critical care professional societies, 1518
- critical care professional societies address the critical care crisis in the United States, 1512
- exercise for fun and profit: joint statement on exercise by the American Thoracic Society and, 1
- patient-focused care: the 2003 convocation speech, 1910
- American Thoracic Society, critical care medicine crisis: a call for federal action; white paper from the critical care professional societies, 1518
- critical care professional societies address the critical care crisis in the United States, 1512
- exercise for fun and profit: joint statement on exercise by the American College of Chest Physicians and, 1
- methacholine challenge testing: comparison of the two recommended methods, 453
- Amiodarone, acute pulmonary injury in association with, 1591
- long-term maintenance of normal sinus rhythm in patients with current symptomatic atrial fibrillation: propafenone vs. both in low doses, 377
- oral, long-term intermittent dobutamine infusion, combined with, for end-stage heart failure: a randomized double-blind study, 119S
- to infuse or not? 1182
- Amphetamines, clinical value of the ECG in noncardiac conditions, 1561
- Amniodosis, tracheobronchial: a case report of successful treatment with external beam radiation therapy, 784
- Amyotrophic lateral sclerosis, efficacy of mechanical insufflation-exsufflation in medically stable patients with, 1400
- Anaerobic training: See Exercise
- Analgesia: See also Pain; proper balance, 13
- Anatomic evaluation of postural bronchial drainage of the lung with special reference to patients with tracheal intubation: which combination of postures provides the best simplification? 935
- Anemia, life-threatening, a 44-year-old Jehovah's Witness with, from uterine bleeding, 1151
- sickle cell, bronchial stricture and hemoptysis in a woman with sickle cell anemia, 766
- sickle cell: top ten list in pediatric lung disease, 1118
- Angina, chronic, prognostic value of stress testing in patients over 75 years of age with, 124
- unstable, paradoxical effect of smoking in the Spanish population with acute myocardial infarction or: results of the ARIAM register, 831
- Angioplasty: See Coronary angioplasty
- Animal investigations: See also Laboratory and animal investigations; chemoprevention of tobacco smoke-induced lung cancer: what animal studies tell us, May Supp., 128S

- Anoxemia, assessment of symptoms and exercise capacity in cyanotic patients with congenital heart disease, 368
- successful aeromedical transport using inhaled prostacyclin for a patient with life-threatening hypoxemia, 1579
- Anoxia, cardiac troponin T in obstructive sleep apnea, 2097
- prolonged nitric oxide inhalation fails to regress hypoxic vascular remodeling in rat lung, 2247
- respiratory sinus arrhythmia: why does the heartbeat synchronize with respiratory rhythm? 683
- Antibiotics, cystic fibrosis adult care: consensus conference report, Jan. Supp., 1S-39S
- discontinuation policy, randomized controlled trial of, for clinically suspected ventilator-associated pneumonia, 1791
- empiric therapy of community-acquired pneumonia guidelines for the perplexed? [ $\beta$ -lactams, macrolides, ketolides, doxycycline, quinolones], 1913
- evaluating combination therapy in community-acquired pneumonia, 353
- from "pro and con" debate to evidence-based practice: ventilator-associated pneumonia, 1600
- guidelines for empiric antimicrobial prescribing in community-acquired pneumonia [macrolides, beta lactams, fluoroquinolones], 188S
- macrolide: clinical similarities and differences between human T-cell lymphotropic virus type I-associated bronchiolitis and diffuse panbronchiolitis, 1239
- macrolide: empiric therapy of community-acquired pneumonia: guidelines for the perplexed? 1913
- macrolides as biologic response modifiers: immunomodulatory and anti-inflammatory effects, Feb. Supp., 41S-78S [effects of macrolides on inflammatory cells, 41S; macrolides for the treatment of chronic sinusitis, asthma, and COPD, 52S; effects of subinhibitory concentrations of macrolide antibiotics on *Pseudomonas aeruginosa*, 62S; immunomodulatory activity and effectiveness of macrolides in chronic airway disease, Feb. Supp., 70S]
- no more equivalence trials for, in exacerbations of COPD, please, 811
- resistance: epidemiology of nosocomial pneumonia in infants after cardiac surgery, 410
- short-term and long-term outcomes of moxifloxacin compared to standard treatment in acute exacerbations of chronic bronchitis, 953
- Anticholinergics, acute asthma in adults: a review, 1081
- Anticoagulants: See also Heparin; evolution of the postoperative pericardial effusion after day 15: the problem of the late tamponade, 2182
- in hospitalized patients with renal insufficiency: a comparison of bleeding rates with unfractionated heparin vs enoxaparin, 856
- long-term oral therapy, costs and clinical outcomes associated with low-molecular-weight heparin vs unfractionated heparin for perioperative bridging in patients receiving, 1642
- Antidepressants, clinical value of the ECG in noncardiac conditions, 1561
- simultaneous use of antihypertensive medications and, increases likelihood of diagnosis of obstructive sleep apnea syndrome, 1279
- Antigens, influenza vaccination in vulnerable populations, 1971
- Antihypertensive medications, simultaneous use of antidepressant and, increases likelihood of diagnosis of obstructive sleep apnea syndrome, 1279
- Anti-inflammatory agents, cystic fibrosis adult care: consensus conference report, Jan. Supp., 1S-39S
- macrolides as biologic response modifiers: immunomodulatory and anti-inflammatory effects, Feb. Supp., 41S-78S
- Antioxidants, airway antioxidants and oxidative stress as predictors of sputum atypia and airflow obstruction, May Supp., 127S
- oral N-acetylcysteine attenuates elastase-induced pulmonary emphysema in rats, 1500
- Antiproteases, answer is fifteen percent: what is the question? 3
- Antiretroviral therapy, highly active (HAART): See HIV infections
- Antitrypsin,  $\alpha_1$ , answer is fifteen percent: what is the question? 3
- deficiency: more than a protease imbalance? 1605
- genetics of COPD, 1929
- Z, polymerizes in the lung and acts as a neutrophil chemoattractant, 1952
- Aorta, hemoptysis in a 38-year-old woman receiving an oral contraceptive, 1944
- woman with chronic, unproductive cough and left lower lobe lung mass, 114S
- APACHE, prediction of risk of death using 30-day outcome: a practical end point for quality auditing in intensive care, 145S
- Apnea: See Sleep apnea: Sleep apnea syndromes, obstructive
- Apnea-hypopnea index, acidification of distal esophagus and sleep-related breathing disturbances, 2101
- prevalence of sleep apnea syndrome in lone atrial fibrillation: a case-control study, 879
- Apoptosis, associated molecules TNF/TNFR1 and Fas/FasL, in sepsis, serum levels of, 223S
- cytokines: the tomb markers of the ICU, 1980
- expression of adhesion molecules during, of circulating neutrophils in COPD, 1837
- increased levels of cell death and proliferation in alveolar wall cells in patients with pulmonary emphysema, 626
- ligands of peroxisome proliferator-activated receptor  $\gamma$  inhibit lung cancer cell growth and induce apoptosis by stimulation of P21 expression, May Supp., 134S
- smoke/burn injury-induced respiratory failure elicits, in ovine lungs and cultured lung cells, ameliorated with arteriovenous CO<sub>2</sub> removal, 1472
- Appliances, oral: See Equipment
- ARDS: See Respiratory distress syndrome, adult
- Arousal index, effects of nasal continuous positive airway pressure on platelet activation in obstructive sleep apnea syndrome, 176S
- obstructive sleep apnea syndrome, sleepiness, and quality of life, 2091
- Arrhythmias, cardiovascular effects of  $\beta$ -agonists in patients with asthma and COPD: a meta-analysis, 2309
- influence of IV haloperidol on ventricular repolarization and monophasic action potential duration in anesthetized dogs, 1821
- respiratory sinus: why does the heartbeat synchronize with respiratory rhythm? 683
- Arterial blood gases: See Blood gas analysis
- Arterial oxygen pressure: See Oxygenation
- Arteriovenous carbon dioxide removal: See Carbon dioxide
- Artificial respiration: See Respiration, artificial
- Asbestos, development of lung tumors in mutant p53-expressing mice after inhalation exposure to asbestos, May Supp., 85S
- increased urinary 8-isoprostaglandin F<sub>2</sub> $\alpha$  is associated with lower plasma selenium levels and lower vegetable and fruit intake in an asbestos-exposed cohort at risk for lung cancer, May Supp., 83S
- induced lung disease, changing patterns 744
- malignant pleural mesothelioma: the puzzling role of gene-environment interaction, 1604
- pleura and: a review, 1103
- Asbestosis, why did the barber acquire [it]? 1594
- Aspergillosis, pulmonary nodules in lung transplant recipients: etiology and outcome, 165
- Aspen Lung Conference, May Supp., 79S-172S (for detailed listing of presentations, see entry at Pulmonary neoplasms)
- Aspiration, toxicity of Food Drug and Cosmetic Blue No. 1 dye in critically ill patients, 793
- Aspiration biopsy: See Biopsy
- Aspiration bronchiolitis, diffuse: See Bronchiolitis
- Aspiration pneumonia: See Pneumonia, aspiration
- Asthma: See also Pulmonary diseases, chronic obstructive; a school-based case identification process for identifying inner city children with the Breathmobile program, 924
- acute exacerbation, measuring health-related quality of life in adults during, 93
- acute, in adults: a review, 1081
- airway obstruction is common but unsuspected in patients admitted to a general medicine service, 106
- allergic, predicting response to omalizumab, an anti-IgE antibody, in patients with, 137S

- breath condensate pH in children with CF and: a new non-invasive marker of airway inflammation? 2005
- bronchial dilatation in: relation to clinical and sputum indices, 1352
- cardiovascular effects of  $\beta$ -agonists in patients with COPD and: a meta-analysis, 2309
- childhood, increase in alveolar nitric oxide in the presence of symptoms in, 1012
- cigarette smoking, emphysema, and, vol. 124:2408; erratum, vol. 125:1175
- clinical significance of elevated diffusing capacity, 446
- coughing during mannitol challenge is associated with, 1985
- effect of ozone exposure on airway responses to inhaled allergen in asthmatic subjects, 2328
- effects of a comprehensive school-based program on symptoms, parent management, grades, and absenteeism, 1674
- effects of pranlukast administration on vascular endothelial growth factor levels in asthmatic patients, 1700
- ethnicity and skin test reactivity to aeroallergens among asthmatic children in Connecticut, 85
- exacerbations and formoterol, 1590, 1591
- extrathoracic expiratory flow limitation in obesity and obstructive and restrictive disorders: effects of increasing negative expiratory pressure, 98
- field exercise vs laboratory eucapnic voluntary hyperventilation to identify airway hyperresponsiveness in elite cold weather athletes, 909
- history of ear infections and prevalence of, in a national sample of children aged 2 to 11 years: the third National Health and Nutrition Examination Survey, 1988 to 1994, 1685
- increased arteriovenous carboxyhemoglobin differences in patients with inflammatory pulmonary diseases, 2160
- increased responses to inhaled oxitropium bromide in asthmatic patients with active hepatitis C virus infection, 1368
- influenza vaccination in vulnerable populations, 1971
- long-term dosing effects of mediator antagonists in inhaled corticosteroid-treated atopic asthmatic patients, 1372
- macrolides for the treatment of chronic sinusitis, COPD and, Feb. Supp., 52S
- methacholine challenge testing: comparison of the two American Thoracic Society-recommended methods, 453
- mild-to-moderate, leukotriene modifier vs inhaled corticosteroid in: clinical and anti-inflammatory effects, 1693
- obesity and: a real connection or a causal association? 1972
- prevalence of chronic respiratory symptoms and, among Alaska Native children, 1665
- prospective multicenter study of relapse following emergency department treatment of COPD exacerbation, 473
- survey of Medicaid recipients with: perceptions of self-management, access, and care, 1359
- the epidemic has ended, or has it? 1969
- tianeptine: a new exploratory therapy for, 348, 349
- top ten list in pediatric lung disease, 1118
- treatment preference study: a conjoint analysis of preferred drug treatments, 916
- trends of, in Mexico: an 11-year analysis in a nationwide institution, 1993
- variations in pediatric hospitalization rates and costs between and within Nordic countries, 1680
